An exhibition of student art

STart 09 showcases selected artwork from secondary school students across Pennine Lancashire. The exhibition provides a real feast for the eyes with work that explores both two and three dimensional design. The influence of historic and contemporary artists such as Van Gogh, Gustav Klimt, Ken Done and ceramic artist Sarah McDade can be seen in the vibrant exhibits which make use of materials ranging from clay and fabric to pastel and paint. Topical and traditional themes such as Stereotypes, Natural Form, Landscape, Cubism, Music and Self Image offer a unique opportunity for young people to express their opinions in a visual format.

STart 09 provides a fantastic opportunity for the students involved to see their work professionally framed and exhibited in Mid Pennine Gallery. The work on show pays tribute to the exceptional young talent living and studying in Pennine Lancashire. It also applauds the enthusiasm and dedication of the teachers who nurture their creative spirit. We hope you enjoy visiting the exhibition as much as we have enjoyed selecting and displaying the work.

Exciting News!

This year, for the first time, we are offering you the chance to vote for your favourite student artwork. The student with the most votes will win a prize and will be featured in the next Mid Pennine Arts newsletter.

The students' personalities shine through to make the work even more special
